

Purpose

The Jeff Corwin Experience is a series of 28 books based on the popular Animal Planet series starring Jeff Corwin. Each book in the series has accompanying teacher and student materials. The purpose of the *The Jeff Corwin Experience* is to give students a brief introduction to interesting habits of animals all over the world. The purpose of the teacher and student materials is to encourage reading and thinking about animals, to help students make connections between science and other disciplines, and to assist teachers in meeting their state standards.

- A student assessment feature including short-answer and extended-response questions
- A student activities feature including a review of the key details of the book and extension activities for individuals or small groups

Use your set of *The Jeff Corwin Experience* books to give students extra practice in reading about animals of the world. Encourage them to use the assessment and activity pages to evaluate what they know about animals and their habitats and to do further research.

How to Use This Series

With a set of *The Jeff Corwin Experience* in your classroom, you may use the books to

- Practice **Informational Reading** about high interest topics
- Assess **Recall** and **Critical Thinking** skills
- Challenge students with **Independent Study**
